

CERTIFICATION

Five Star Environmental Sustainability Audit

The Five Star Environmental Sustainability Audit aims to support and improve the environmental sustainability performance of your business by examining your policies, processes and practices and recommending improvements.

The Five Star Environmental Sustainability Audit aims to support and improve the environmental sustainability performance of your business by examining your policies, processes and practices and recommending improvements.

What is it?

An in-depth examination of an organization's entire environmental sustainability policies, procedures and associated arrangements against best practice and recommending improvements.

The audit goes beyond the requirements of traditional environmental management systems such as ISO 14001:2015. The audit will help you demonstrate your environmental sustainability credentials to your stakeholders including customers, supply chain and other stakeholders.

Who is it for?

Organization's within any sector (of any size) who:

- a. require a status assessment of their current environmental sustainability policies, processes and practices against best practice.
- b. require a structured route toward implementing environmental sustainability within the organization

The audit can be undertaken by any organization of any size whatever stage of the environmental management journey they are on. For organizations starting out on their journey of implementing environmental management, the audit can be used as a road map for both short and long-term plans for environmental performance improvement.

For organizations with a long-standing commitment to environmental management, the audit provides a robust third-party validation of your organization's current policies, processes and

practices. It includes recommendations aligned with best practice that allow you to continually improve.

Why the audit is right for your organization

External recognition of Environmental Management Systems to best practice standards

- Demonstration to stakeholders and other interested parties (including regulatory bodies) of commitment toward environmental responsibility
- Structured route toward continual improvement and best practice standards
- Monitor current and changing environmental legislation
- Improve your environmental management systems
- Improve resource efficiency
- Assess your current systems allowing you to action plan to meet the revised ISO 14001:2015 standard
- Demonstrate your commitment to customers, employees, suppliers, shareholders and the local community
- The exclusive certificate and logo can be used to demonstrate your success
